Skills

Python
Rust
Linux
FastAPI
SQL
Docker
Jenkins
CI/CD
Git
PyTorch
AWS
Bash
GCP

Languages

Polish: Native
English: C1/C2
German: A2

Certifications

AWS Cloud Foundations – AWS Academy
AWS Cloud Developing – AWS Academy
RAG and AI Agent Development – Intel & Poznan University of Technology

ADAM SAPIECHA

SOFTWARE ENGINEER

Work experience

Junior Automotive Software Engineer

April 2026
Present

Samsung R&D Institute

- Develop and diagnose automotive software and automated testing infrastructure for Linux-based SoC platforms.
- Build CI/CD tools and Embedded Linux test-farm automation using Python, Bash, Jenkins, FastAPI, PostgreSQL, React and Docker.

Fullstack Developer

August 2024
January 2026

Fundacja Sorno

- Developed and maintained a medical platform comprising backend APIs, a web portal and a Flutter application.
- Automated operational workflows, integrated cloud and payment services, and migrated data to the Medfile cloud.

QA Tester / Data Analyst

July 2025
April 2026

Tikrow

- Tested REST APIs and backend logic, analyzed SQL data, and automated anomaly detection using Python and machine-learning models.

Portfolio

Projects, source code and demos

adam-sapiecha.github.io/Portfolio-AdamSapiecha/

Education

BEng in Computer Science

September 2023
Present

Polish-Japanese Academy of Information Technology

- Final year; degree in progress.

Selected projects

TaskMesh - Distributed Task Execution

- Built a Rust API, PostgreSQL job queue, workers and React console with leases, retries and crash recovery; deployed with Docker on Linux ARM64.

AI Posture Analysis System

- RGB-D prototype using OAK-D, Raspberry Pi, AI models and 3D geometry; developing image analysis for potential postural abnormalities.

Flood-aware Evacuation Routing

- FastAPI application combining OpenStreetMap and flood extent data to calculate evacuation routes that avoid flooded roads.

Dual-Agent Support System

- Java application using intent routing and the OpenAI API to provide technical and billing support through specialized agents.

Data Processing Consent

I consent to the processing of the personal data provided in my application for the purpose of conducting the recruitment process for the position for which I am applying, in accordance with Regulation (EU) 2016/679 (GDPR).
